

100 W Main Street ~ Odessa, Missouri 64076 - Sean Croucher, DVM ~ Jennifer Shockley, DVM

Pre-Anesthetic Testing Consent Form

Name of Owner: _____

Name of Patient: _____

How will pre-anesthetic testing help my pet?

These tests help to reduce the risk of complications during anesthesia and to ensure faster recovery for your pet. If the test results detect any hidden illness, we can alter the anesthesia or postpone the surgery to ensure your pet's safety.

What tests can be run?

- Pre Anesthetic Blood Test Comprehensive Blood Test (Recommended for patients over 7 years old)
 Infectious Disease (Heartworm Test, FELV/FIV) ECG (Heart Rhythm)
 Additional Test _____

- Yes, please perform the doctor's recommended test(s) on my pet. There will be additional costs incurred for these diagnostics. Initial _____
 No, I decline the doctor's recommended test(s) at this time.

Our clinic believes in compassionate medical care for our patients. We highly recommend pain management for surgery on your pet. Pain medication before, during, and/or after surgery requires less anesthesia, improves recovery, and healing time. We also use therapeutic LASER therapy after surgery which reduces pain, inflammation, and speeds healing.

- Please administer pain injection to my pet Initial _____
- I WOULD like pain medication sent home after surgery if the doctor feels it is necessary Initial _____
- Please provide LASER therapy to the surgical incision post-op Initial _____
- I **do NOT** want pain medication given to my pet Initial _____

Feline Declaw: I would like to use the CO₂ LASER for surgery (additional cost incurred) Yes No

SPAY: If my pet is found pregnant, please continue with the spay (additional cost incurred). If you do not wish to continue with the spay, you will still be charged the cost of a spay.

Yes Please Spay

No **DO NOT** Spay

Please perform these additional elective procedures while my pet is anesthetized:

(additional cost incurred)

- Clean and Flush Ears Microchip
